

# About the Workshop

Dear Gynecologists and participants:

It is my great pleasure to extend a cordial invitation to you for coming and participating in our forthcoming international workshop, which will be held on August 20<sup>th</sup>-22<sup>nd</sup>, 2018 at the Thai-German Multidisciplinary Endoscopic Training (TG-MET) Center under the Royal Patronage of H R H Princess Maha Chakri Sirindhorn.

The aims of this workshop are primarily to level up the gynecologic laparoscopic knowledge and experience for Gynecologists who are interested in endometriosis and need to improve their skills of surgical dissection. The cornerstone and highlight of this scientific meeting will be Professor Alan Lam, Prof. Chyi-Long Lee and Prof. Kuan-Gen Huang, the world famous professors and having profound experiences in this field. They are going to give us informative lectures regarding laparoscopic surgical treatments and also show us their surgical techniques in live surgery session. Cadaveric hands-on on the last day will be focused on step by step of laparoscopic hysterectomy with anatomic elucidation. Moreover, we will provide an opportunity to promoting friendly relationship between our participants.

On behalf of The Thai Society of Gynecologic Endoscopists (TSGE) and TGMET center, I wish this workshop would be one of the best memorable courses to all Thai gynecologists and our friends from overseas and look forward to seeing you very soon.
